Unit Managers' Meeting  
300 Area Solvent Evaporator  
740 Stevens Center, Room 2519  
Richland, Washington

Meeting Held February 2, 1993  
From 9:00 to 11:00

### Summary of Discussion and Commitments/Agreements

#### Review, Amend, Approve, and Distribute Prior Meeting Minutes

Final meeting minutes for November 1992 were reviewed, approved, and signed by the Unit Managers. Meeting Minutes for January 5, 1993, were provided to Ecology (Mr. Cordts) for review.

#### Status Prior Action Items

1-05-93:1 Close Action Items 4-23-91:1, 10-26-92:1, and 10-26-92-: as described above.

1-05-93:2 WHC will continue sonification research

It was confirmed by Ecology (Mr. Cordts) that Ecology is reviewing the sonification procedure (closes prior action item, see agenda). Before the next UMM, Ecology will supply the date for approval/disapproval of the sonification procedure.

#### New Business

WHC (Mr. Clifford) stated that sometime between March and June sampling should start, provided that Ecology approves the sonification procedure. Proper notifications to Ecology would be followed so that their representatives could witness the field activities.

Ecology (Mr. Cordts) returned the signature pages for revision 3a and 3b, thus the Witczak #1 closure plan binder is current.

Following some discussion, Ecology (Mr. Cordts) stated that the existing "draft" permit conditions should remain and that no new ones have been discussed. The dates provided in these permit conditions would be updated to reflect issuance on the Hanford Facility Permit (HFP). Mr. Krekel of RL stated that comment (NOD) on the HFP from EPA are expected to be given to RL in late February for the 616 and 305 units. These NODs and the response process would further delay the issuing of the HFP.

The next Unit Managers' Meeting is scheduled for March 2, 1993, in Richland, Washington.
